

TIME STAMP

SHOClock

Meet SHOClock: Your Friendly Cargo Guardian

Say hello to SHOClock, the game-changing shock indicator with a timestamp that's here to keep your shipments safe and sound! With its clever design and easy-to-use features, SHOClock makes cargo monitoring a breeze.

SHOClock—think SHOCK for impact detection, CLOCK for tracking time, and LOCK for securing the truth of that first bump—feels like a detective on the case, uncovering exactly when and what happened to your goods, just like a trusty Sherlock for your supply chain.

Features That Shine

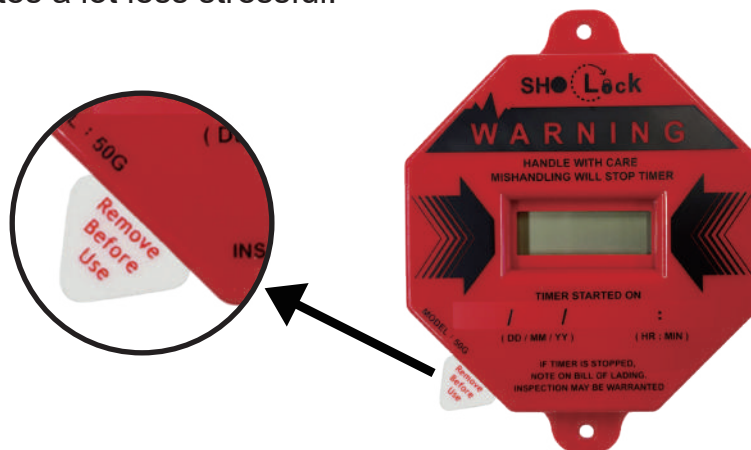

Here's what makes it so special

- 1 **Curved Window for Easy Viewing:** No more squinting or twisting to see what's going on—it's clear as day!

Saving your time during inspections, from warehouse workers to logistics pros.

- 2 **Tamper-Proof Switch to Lock the Truth:** Locks the first impact event in place. No one can reset or mess with it, so you know the data is legit. A rock-solid proof for claims and making disputes a lot less stressful.

- 3 **Instant Feedback with a Timestamp:** Unlike tradition indicators, SHOClock doesn't just show an impact—it tells you when it happened with a clear timestamp.

- 4 **Built for the Long Haul:** Watching over your cargo through long journeys, up to 7000hrs, with reliable monitoring that doesn't quit.

They Blink. We Stand.

Traditional Shock Indicators

SHOClock

Shock Data Loggers

Tamper-Proof Design

Easily removed or manipulated

Locks first impact, no resets/remove allowed

Secure but complex to access

Real-Time Visualization

Only color change, no timing info

Bright display with timestamp

Needs software/devices to view data

Timestamp Evidence

No timestamp, vague data

Precise impact timing

Detailed but not instant

Long-Term Monitoring

Good

Reliable for extended journeys

Good but requires maintenance

Ease of Use

Easy but lacks detail

Simple, at-a-glance feedback

Complex setup and data retrieval

Claims Process

Slow due to unclear evidence

Streamlined with clear proof

Time-consuming data analysis

Price

Cost-Effective but less accountability

Balance between cost and functions

High cost

With SHOCLOCK, you'll:

Keep your cargo safe with tamper-proof evidence.
Speed up inspections with easy-to-see feedback.
Simplify claims with clear, timestamped data.
Build trust across your supply chain.

Ready to give your shipments the protection they deserve? Choose SHOCLOCK today!
Visit our website or reach out to our team to learn how SHOCLOCK can make your cargo monitoring worry-free.

Specification

Dimension	96 x 125 x15mm
Weight	63g
Record Time	7000 hrs
Working Temperature	-15°C~70°C
Best Before Date	2 Years from the date of sales
Case Material	ABS
Adhesive	3M Acrylic Pressure Adhesive
Battery Type	Lithium Battery (CR2032)

+886-2-2698-8900
